

La Gatinerie Daycare and Gestionnaire A Winning Partnership

Lise Hagarty
Administrative Assistant

Easy-to-Use Management Software

Since 2001, Lise Hagarty has been using Gestionnaire to run the La Gatinerie daycare centre and home childcare provider.

The home childcare provider manages 895 child records. Given the work that this entails, efficiency and time-saving are crucial to ensuring that government deadlines are met when the office submits documents and reports.

Ms Hagarty finds it especially useful that the software allows several users to carry out the same tasks at the same time. ***"Entering the data of 895 children requires a lot of time. With the Childcare module, two people can enter different details at once, reducing the workload of both individuals, and making it possible to meet delivery deadlines which are often very tight."***

"We chose Gestionnaire because it is so easy to use and because it met all of our management needs."

Daycare centre personnel management tasks needs to be carried out very carefully in order to avoid any mistakes. Ms Hagarty says, ***"Producing paycheques with Gestionnaire's Human Resources module not only helps me save money, but it also limits the risk of error when calculating employee pay."***

According to Ms Hagarty, the quality of its customer service really makes Gestionnaire stand out. ***"Customer service is very important to us. It's another reason why we chose this software."***

About La Gatinerie

Founded in 1982, the La Gatinerie daycare centre is also a home childcare provider. Located in Gatineau, Quebec, the centre has 895 spots in home childcare and 62 on-site spots.
